723 Robson St., Vancouver, B. C.

ROSES

This list, with short color description, has been revised and brought up to date, all obsolete varieties have been eliminated.

Roses generally are very scarce, and we would urge our customers to place their orders as early as possible.

Owing to the increased cost of labor and material, we have been compelled to advance prices. Customers will, however, find that the quality of our plants has in no way deteriorated.
